Volume 36, Number 12

\$49,000 FOR THIS DISTRICT IS VICTORY LOAN OBJECTIVE

Canvassers Hampered Monday By Snow-Closed Side Roads

Raising of the official flag on the main street of Crossfield on Monday morning announced to the citizens that the Second Victory Loan was under way. Canvassers, well prepared for their task, were ready to begin the canvas of homes and business places to impress the public of the necessity of subscribing to the loan and fill out bond application forms.

Heavy snows at the weekend closed many roads in the district and made impossible to get the drive in Crossfield district in full swing on Monday. By Tuesday noon conditions were somewhat better and most canvassers were able to start the task of raising the quota of \$49,000.

Committee men and canvassers all feel that the district will do as well this time as it did in the first Victory Loan last year when the objective was over-subscribed more than one hundred per cent.

Original objective for Crossfield district for this loan was set at \$58,000, but the committee asked that this be lowered and the raised quota of \$49,000 was allotted here. Although the committee feels the district will raise better than \$58,000, in comparison to other districts of much the same population and financial status, they felt the objective should be more on that level.

PLAN ADDITION TO AIRDRIE SCHOOL

The Airdrie school board was given authority to continue with plans for the addition of two rooms to the north end of present school, at the annual meeting of the ratepayers of the district on Saturday afternoon.

If enough material can be salvaged from the old primary building, which has been condemned, and from another closed block in town, and enough labor can be secured to apply on tax arrears, it is believed that the undertaking will not be expensive. There is a balance in the treasury of over \$2,400.

Winnipeg Builds Propellers

Among the numerous war industries spread across the West is a plant in Winnipeg where propellers are built for Canada's training planes. Modern machinery, such as the device shown here, helps speed up production. This "profiling lathe" does a job in thirty minutes that used to take an experienced worker six hours.

INCREASE YOUR BOND PURCHASE

As the war lengthens, Great Britain's needs grow and grow, and as Canada's armed forces increase steadily month by month, in terms of men and equipment, the Canadian government has had to revise its estimates of what money must be obtained from the people of the country in order to prevent any slackening of pace. On Monday, the Second Victory Loan organization commenced a campaign to raise at least \$600,000,000. In all likelihood, much more than that will have to be raised later in the year.

No private citizen is in a position to shrug his shoulders when told about this particular problem at Ottawa. Because in this instance particularly the government problem becomes the problem of each citizen which the government represents. As the government revises the general estimate of new money to be found, the private citizen must revise his estimate of how much he shall subscribe to the present loan and another or others later in 1942.

Only if the majority of citizens accept the necessity for a revision of the amount of Victory Bonds they had planned to buy in 1942, will higher Victory Loan objectives be reached.

The most earnest plea which the country of Canada can make to the individual citizen at the present time is that he do everything in his power to increase his purchase of Victory Bonds.

GAS RATION AND TIRE SHORTAGE MAY BE BOON !

With the rationing of gas and the gradual thinning of the tire treads on cars may come a period like that which went when fast cars and good roads came. Conservation of these articles may and should tend to increase the buying of country citizens in their country stores. And when it comes, they will readily see how money can be saved by buying at home. Money which later will enable them increase their purchases of Victory Bonds and War Savings Certificates.

TO DRY EGGS FOR BRITAIN

**Saves Shipping Space
Without Harming
Food Value**

OTTAWA, Feb. 17.—A complete revision of methods of shipping eggs to the United Kingdom in dried form instead of in shells, was announced today by the agriculture department.

In their dried form, the eggs will require only one-seventh as much shipping space as when shipped in the shells and packed in protected cases.

Under an existing contract Canada plans to ship about 20,000,000 dozen eggs before the end of May. Beyond that another 15,000,000 cases may be provided later in the year.

Officials said it was planned to ship all these eggs in dried form. "All that is lost in the drying process is the water, and this means economy in transport without loss of the food values has been accepted by the United Kingdom," an official said.

The drying of eggs has been undertaken in Canada for many years and it is not expected extensive expansion of facilities would be required.

One case of 30 dozen eggs is required to make 10 pounds of dried eggs which appear in a yellow flour-like form and can be packed conveniently and securely in barrels.

The special products board will continue to take all eggs offered in carlots at the regular contract prices, based on 22.12 cents a dozen at seaboard, plus a three-cent bonus on grade A quality.

Officials said the increased egg production campaign had been assisted by mild weather on the prairie during a substantial part of the winter. The maritime provinces also reported production was exceptionally high.

PINKY-WHITE DIMPLES; a button of a nose; wee, slender fingers clutching at your coverlet—what kind of a world is this to which you will awake?

Your life, we hope, will be rich in love and laughter. God forbid that your Canada should ever come under the heel of a ruthless barbarism, where babies are born to be the future shock troops, or the mothers of a brutal, military race.

We promise that you shall inherit a Canada blessed with the liberty our fathers bequeathed to us. You shall be free as we are free.

So we gladly lend our money to our country in this crisis. We will buy Victory Bonds to the very limit. We must and we will make sure that the threat of a brutal way of life is banished forever.

HOW TO BUY—Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Or you can authorize your employer to start a regular payroll savings plan for you. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000 and larger. "Thank You" Notes For Fags Received

Dear Friends:

Just a note to thank you ever so much for your Christmas gift of 1,000 cigs. Mine just arrived today (Jan. 8) but you had the wrong address on them as they went to the Holding Unit. They sure arrived just in time, too, as I was down to my last smoke today. Now I'll be able to smoke tomorrow.

I had quite an assortment of gifts and parcels this Christmas and I really appreciate the people back home thinking of us so often. We are all packed ready to move tomorrow to a job about 30 miles from our headquarters and expect it to last for two or three months. We might see action before that time though, as I don't think things will go on as they are much longer.

As news is scarce I will say Cheerio and all the best for now. Hope you all have a happy and prosperous 1942 and that we will be back with you before this year is out.

Your sincere friend,
Ken. Gilchrist.

Dear Friends:

Just a note from an old member of your district to thank you for your shipment of cigarettes which I received on January 3. I sincerely thank you one and all as a few smokes are really appreciated by us all. At times they are very difficult to get here.

I hope one and all there had a happy Christmas, and it was more than once that my own thoughts were there. I spent a somewhat quiet day, though I had a turkey dinner with all the trimmings—and lots left for the next meal. I could not get leave to go and stay where I was last year, but later on I am due for 14 days, so I should make up for it then.

Well, news is scarce here. All I have to say is I am in the best of health, also so are the other boys I have seen from there. Thanking you once again, and here's hoping we will be back soon.

Sincerely yours,
Oren Fike

Dear Friends:

We received the 1,000 cigarettes you sent us for Christmas. Many, many thanks to the Smokes Fund, and the best of everything for 1942.

Sincerely yours,
Tommy Knowles
